OVERVIEW OF GREEN LABELING

'Green Labelling' or 'Eco Labelling' is a discipline that has been applied in a number of countries with the aim of minimizing the adverse effects imposed on the environment by the manufacturing and production industry. As governments worldwide tighten environmental laws on carbon emissions, waste reduction, and sustainable sourcing, companies with certified green labels products have a tendency to meet regulatory requirements.

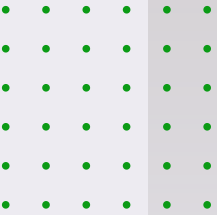

Green Labelling System (GLS) is an ISO Type I Eco-Labeling System which involves voluntary, third party certification based on multiple environmental criteria across the life cycle of a product.

CERTIFICATION SCHEME

MANAGEMENT	160 Points	LIFE CYCLE APPROACH	70 Points
RAW MATERIALS AND CHEMICALS	190 Points	GHG MANAGEMENT	70 Points
MANUFACTURING PROCESS	200 Points	PRODUCT STEWARDSHIP	30 Points
PRODUCT CHARACTERISTICS	70 Points	HEALTH AND SAFETY	50 Points
WASTE MANAGEMENT	60 Points	ECO INNOVATIONS AND AWARDS	160 Points

Total 1000 Points

STAR RATING SYSTEM

PRODUCT CATEGORIES

GBCSL has introduced five Product Categories based on raw material types, production processes etc.

Category 1

Quarrying of raw, natural materials

- Stone
- Sand
- Clay etc.

Category 2

Non-Metallic Products

- Paints, Coatings, Adhesives etc.
- Windows, Doors, Water Fixtures etc.
- Flooring and Carpeting Materials
- Glass and glass products
- Cement, Concrete and Concrete Products, Bricks, Fiber-Cement, Ceramic Products etc.

PRODUCT CATEGORIES CNTD..

Category 3

Metallic Products and Materials

- Aluminium Profiles
- Iron and Steel Products
- Structural Metal Products

Category 4

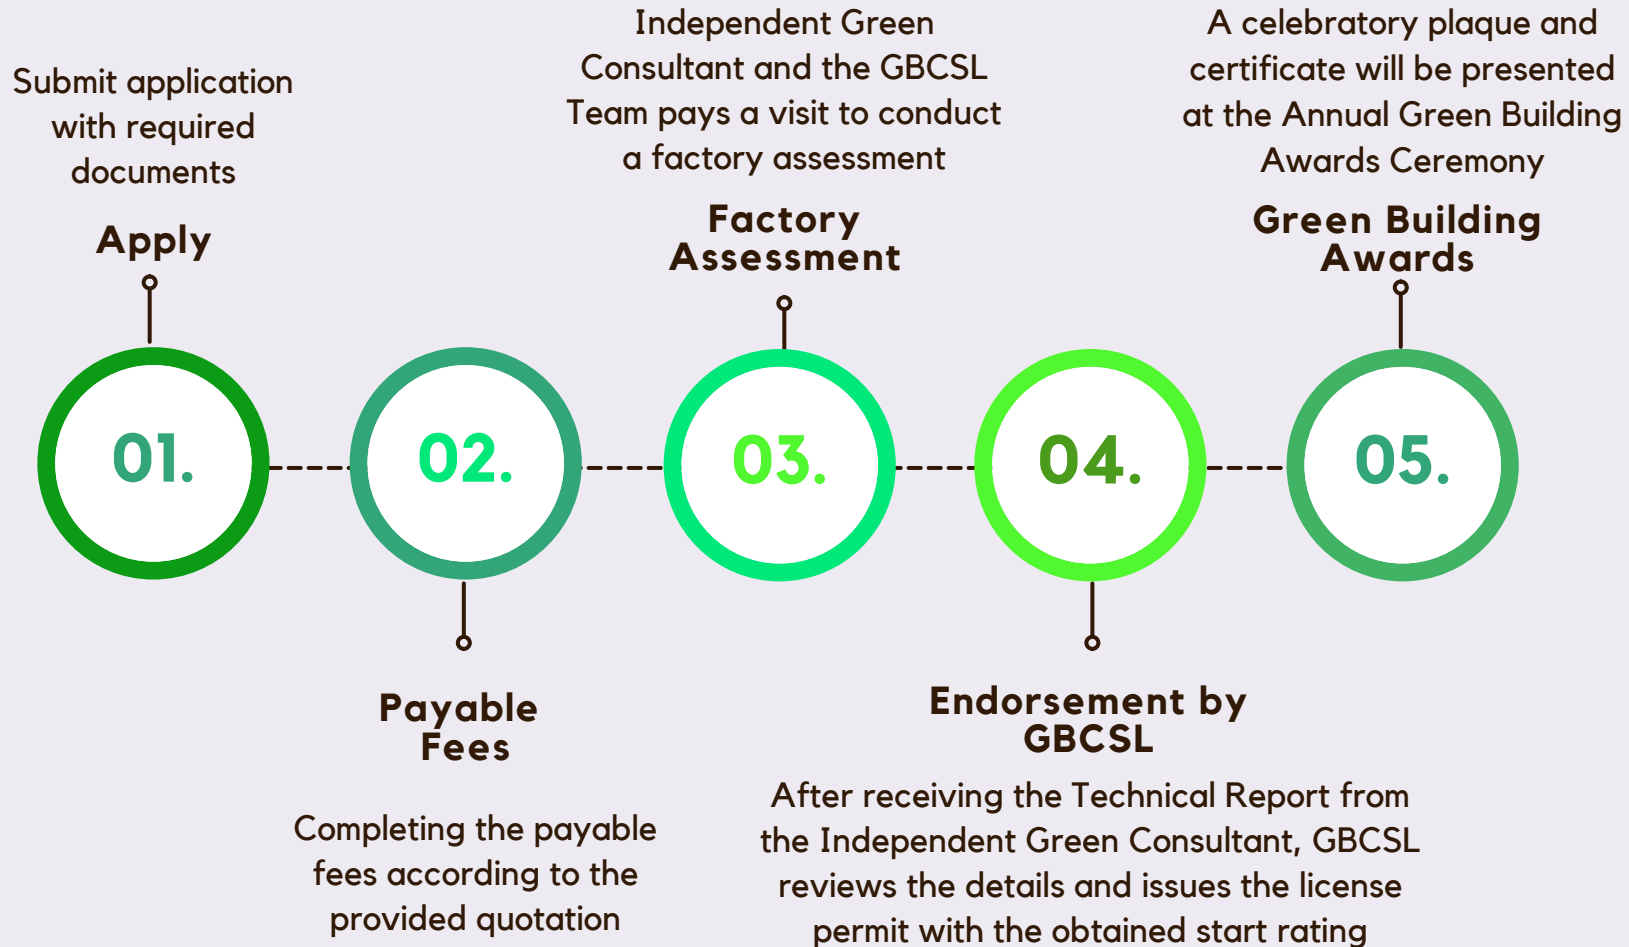

Machinery and Electrical Equipment

- Wiring and Wiring Devices
- Lighting Equipment
- General purpose machinery

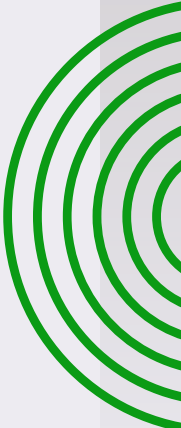

Other

Any industries or activities related to construction and building sector and not clearly fitting into the above four categories

CERTIFICATION TIMELINE

PAYMENT SCHEME

No. of Products	New Certification (SMEs) (LKR)	New Certification (Large Scale) (LKR)	Recertification (SMEs) (LKR)	Recertification (Large Scale) (LKR)
1 Product	255,000 - 275,000	305,000 - 325,000	195,000 - 225,000	280,000 - 300,000
2 - 3 Products	327,000 - 425,000	393,000 - 505,000	251,000 - 345,000	360,000 - 465,000
4 - 5 Products	444,000 - 535,000	536,000 - 637,000	342,000 - 433,000	490,000 - 586,000
More than 5 Products	Negotiable	Negotiable	Negotiable	Negotiable

BENEFITS OF GREEN PRODUCTS

Environmental Benefits

- Improved energy efficiency
- Minimizing waste
- Encouraging low carbon manufacturing process
- Water Conservation

Economic Benefits

- Lower Operational Cost
- Access to Green Financing
- Global Competitiveness
- Integration with Environmental, Social and Governance Metrics

Social and Health Benefits

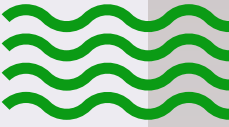

- Promoting healthy living and working environments
- Improved Indoor Air Quality
- Promoting non-toxic and non-hazardous substances
